

EMPLOYEE ASSISTANCE

In alignment with our commitment towards Equity, Diversity, Inclusion, and Partnership, the SCCOE has established an Employee Assistance Program (EAP). The EAP is part of the Workforce Development and Organizational Culture Department in the Human Resources Division and is led by Ana Reyes.

The EAP utilizes SCCOE resources and coordinates with county and community agencies, non-profits, and other partners to identify resources and programs that SCCOE employees can access. The programs focus on identifying resources to support employees, and their families with health and safety, financial, and legal topics, relationship and family matters, and overall well-being. All outreach and communication with the EAP is confidential.
